

Photo/video verification practice

- *(Advanced)* Can you verify that these two videos show the same event? Videos of a Russian helicopter firing on a group of journalists and cars during the Zapad-2017 exercises in Russia, and a cockpit video of a helicopter firing a missile. *Bonus: can you geolocate the videos?*

- *(Intermediate-Beginning)* This video does not actually show an explosion in Brussels. Where did it actually take place?

- *(Beginning)* Can you verify that this video of a falling video in Mexico City is real, via geolocation or historical satellite imagery (Google Earth)?
