

perago

Deeptech accelerator that fast tracks the growth of ventures commercializing breakthrough inventions.

It is for founders with a bold vision for creating a world-changing company backed by great science and strong intellectual property. Deeptech companies have a different risk profile – high tech risk, lower market risk – and require a specialized approach to scale. They have incredible potential to become resilient companies if they receive the right resources and mentorship at the right time. Perago is designed with deeptech challenges in mind to support companies towards Series A.
